17.00-18.00	Official launch at Churchill Courts. With drink and snack

Guidelines

Time

It is the chairs' responsibility to keep track of time. We have a lot of presentations and cannot use more time on each presentation than scheduled for in the program. Chairs are asked to be strict, in order to make sure that we are not delayed.

Thematic presentations

We have 45 minutes for each thematic presentation. Presenters are asked to speak for no more than half an hour, in order to have time for discussion with the audience within the 45 minutes.

Presentations of individual projects

When we prepare our individual presentations we need to make them a little shorter than scheduled for in the program, so that we have time to change from one Power Point to another, etc. In our presentations, we have to unfold the nature of our research projects. In addition, we have to include a time plan for our research. This time plan has to include information about when we plan to conduct fieldwork in Uganda.
